WinCast® Online – Rent WinCast® Professional

Temporary licenses for WinCast® are now available.

We recently enhanced our software package by offering temporary licenses, so you just have to pay for the time you use the software.
After you have completed the registration process, you can purchase daily or weekly licenses of our program at all times.
By offering this new feature, we are certain that we have enabled you to use our program in a very cost-effective way.
In case you have any questions, contact us at:
wincast-online@rwp-simtec.de

Details regarding the ordering process and the installation of WinCast Online

In order to ease the initial contact it is necessary to follow these three steps:

1. Send the contract

For quick processing, please email the filled out contract to:

wincast-online@rwp-simtec.de

You may also print out the contract and send it with a signature and stamp by fax: +49 (0) 24 71 / 12 30 99 or through the mail:

RWP GmbH
Abteilung WinCast-Online
Am Münsterwald 11
D-52159 Roetgen

You can also leave the contract here at our information booth.

Please keep in mind that the first license you order should be valid for at least a week. Otherwise we would have to collect an additional fee of 500 Euro.

You will then receive a CD with the latest version of WinCast® as well as the latest manual.

Please install the program on the computer you want to use it on. For every computer on which you would like to run WinCast, you need to register separately.

2. Install the program and register with RWP

After the installation, WinCast requires you to send the registry file *register.rwp* to the following address:

wincast-online@rwp-simtec.de

You will then receive a registration file called "lizenz-.exe."

3. Activate the temporary license

Execute the file „lizenz.exe" to unlock the software for the ordered time period.

4. Additional temporary licenses

After you are registered as a customer with RWP, all you need in order to purchase additional temporary licenses is your user name.

You can also get the form at our information booth.

What does WinCast® Online mean for you?

WinCast® is a Windows-based Simulation software by RWP. Online means that you have the possibility to buy a temporary license via the Internet at all times.

Advantages of WinCast® Online

- After initial contact, installation and registration you can use it whenever you like.

- Runs on any computer with 1 Ghz and 256 MB Ram

Hi, my name is Hans-Jürgen Zäck,and I am responsible for WinCast® Online. Since I am an honest person, I want to tell you about two real disadvantages:

1.Our disadvantage: You do not use WinCast® Online
2.Your disadvantage: You do not use WinCast® Online

It is up to you to kill two birds with one stone ...
